

**REQUEST TO HAVE UNLISTED OWNERSHIP ON
PROPERTY ASSESSOR'S ONLINE DATABASE**

Pursuant to 2022 Public Chapter 996, an assessor of property may display "UNLISTED" in the ownership field of an online searchable database of property when the residential property owner files a written request with the assessor and clearly demonstrates to the assessor that the subject property is the primary residential property owner making the request. By submitting this form to the property assessor, the property owner officially requests the assessor to display "UNLISTED" in the ownership field of the assessor's online searchable database for the property listed below.

An assessor is not prohibited from responding to an open records request regarding the subject property or from providing information available through an open records request.

So, property record cards, assessment rolls, etc. will continue to display the owner's name. Public Chapter No. 996 only addresses "the ownership field of an online searchable database." It does not provide authority to further suppress ownership records beyond that.
