## **Knox County, Tennessee Budgeted Fund Descriptions**

**General Fund:** The General Fund is used to account for resources traditionally associated with government that are not required legally or by sound financial management to be accounted for in another fund. The General Fund accounts for the normal recurring activities of the County (i.e. public safety, recreation, health and welfare, general government, etc.). These activities are funded principally by property taxes on individuals and businesses.

**Governmental Library Fund:** This fund accounts for the operation of the law library that is available to the public but is used primarily by attorneys practicing in the courts. User fees are charged by the Governmental Library.

**Public Library Fund:** This fund is used to account for the operation of the County-wide public library system.

**Solid Waste Fund:** This fund is used to account for solid waste and recycling activities.

**Air Quality Fund:** This fund is used to account for activities related to compliance with the Clean Air Act, funded by permit fees received from operators of facilities that are sources of air pollution. (Note – for annual financial reporting purposes, this fund is included in the State and Federal Grants Fund.)

**Hotel/Motel Tax Fund:** This fund accounts for the collection and use of the amusement tax to promote tourism and related economic activity in the County.

**Engineering and Public Works Fund:** This fund is used to account for the County's share of the State gasoline and motor fuel taxes that are utilized to maintain non-state roads within the county.

**Debt Service Fund:** This fund is used to account for the accumulation of resources for, and related payments of, principal and interest on general long-term debt for the County and for the Knox County Board of Education, a discretely presented component unit.

**General Purpose School Fund:** This fund is used to account for general operations of the Board. Major funding is provided through local tax levies and state education funds.

**Central Cafeteria Fund:** This fund is used to account for the cafeteria operations in each school. The primary sources of funding are federal and state revenues for the school lunch program and sales to students and adults.

**School Construction Fund:** The annually-budgeted portion of this fund is used primarily to account for the repayment to the Debt Service Fund of a portion of the annual debt service related to long-term debt incurred for school purposes. The remaining activities of this fund consist of the Board of Education's building construction and major renovation projects. Funding for those projects is included in the Capital Improvement Plan.

(1) In 2011, 2012, and 2013 we have reclassified "space costs" to Accounting Unit 1016955 - PBA Management. Included in this category are utilities, custodial, building maintenance, and security costs.

(2) Operating Transfers to the Solid Waste, Public Library, and General Purpose School Funds. (Note - Beginning in FY 2012, certain revenues that had been received in the General Fund and subsequently transferred to the Solid Waste and Public Library Funds are being recorded directly in those funds.)

(3) The Fire District rate is not included in the countywide tax rate. The Fire District was not assessed beginning with the 2011 Fiscal Year.

(4) Beginning in FY 2013, the budget for this fund is being adopted on a project-length basis. Therefore, the budget is included in the Capital Improvement Plan rather than in the Annual Budget.

**CAPITAL IMPROVEMENT PLAN  
FY 2014 THROUGH FY 2018  
CAPITAL IMPROVEMENT PLAN POLICY**

**Knox County has established a set of policies that cover the process of preparing the Capital Improvement Plan. Below are the major factors involved in the process:**

- A. Construction projects and capital purchases that generally cost in the aggregate more than \$100,000 and/or have a useful life of greater than seven years will be included in the Capital Improvement Plan. Furniture, fixtures and equipment purchased for major additions or renovations will be included in the plan; all other regular maintenance and capital purchases less than \$100,000 will be included in the operating budget.
- B. The purpose of the Capital Improvement Plan is to plan, schedule, and anticipate financing for capital projects for the next five years.
- C. Department Heads and Elected Officials will prepare the project proposals and present the requests to the Finance Department. The Public Building Authority will assist with the calculation of project costs and schedules. The project proposals from the Knox County School System will be forwarded to the Finance Department once the Knox County School Board adopts its request. Operating costs associated with the project must be provided by the department or elected official and are not included in the Capital Improvement Plan.
- D. The Knox County Finance Department and County Mayor will review the project requests and make recommendations to the County Commission. The final plan recommended by the County Mayor includes the financing of the projects recommended. Financing for the capital budget will come from General Obligation Bonds and other sources. If a specific current revenue source is identified for a project, then that funding is included in the plan.
- E. Budget appropriations for projects included in the first year of the approved Capital Improvement Plan, for which financing is planned for the upcoming fiscal year, are required to be approved by the County Commission. Budgetary approval for projects planned for the subsequent years, for which the financing is planned in those future years, is generally not obtained during the first year of the Capital Improvement Plan and is subject to revision in subsequent years' Capital Improvement Plans as the expected capital needs, and anticipated availability of the related financing, may change in response to future economic conditions and other circumstances.

Major equipment includes the non-routine acquisition of long-lived capital equipment.

These items are planned to be acquired from the proceeds of capital outlay notes, which will be repaid over a shorter period than the bonds that will be issued for longer-term capital expenditures for buildings and building improvements.

This process will match the useful lives of the capital assets with the repayment of the related debt.
