

Knox County Air Pollution Control Board

Proposed Regulatory Revisions July 18, 2012

1. Amend Section 40.2 by adding the following entry which reads as listed below:

“ NNNN. Standards of for Nitric Acid Plants for Which Construction,
Reconstruction or Modification Commenced After October 14, 2011, as
specified in 40 CFR 60, Subpart Ga, as amended, as adopted by Knox
County on July 18, 2012. “

2. Amend Section 25.1 by adding new Section 25.1.E, Public Participation, which reads
as follows:

“ E. Public Participation

 1. The Director shall notify the public by advertisement in a local newspaper of
the applicants seeking to obtain a permit to construct or modify an air
pollution source. This notice shall specify the location of the proposed source
or modification, the type of source or modification, and shall provide the
opportunity for public comments. The public shall have thirty (30) days from
the date of advertisement to submit written comments to the Director.

 2. The Director shall consider all written comments submitted in making a final
decision. If requested the Director shall make all comments available for
public inspection. “
