

14.0 AMBIENT AIR QUALITY STANDARDS

- 14.1 The ambient air quality standards for Knox County are those established as the National Primary and Secondary Ambient Air Quality Standards (NAAQS), as specified in 40 CFR 50 et al, as amended, which are adopted by reference into the KCAQM Regulations.
- 14.2 In addition to the NAAQS, the standards for Knox County for gaseous fluorides (expressed as HF) and hydrogen chloride (expressed as HCL) are those specified in Tennessee State Rule 1200-3-3-.03(1)(b), (c), and (d), as amended and are adopted by reference into the KCAQM Regulations.
