

## 24.0 REGULATION OF AIRBORNE AND WINDBORNE MATERIALS

### 24.1 Prohibitions

On or after the effective date of these regulations, no person shall cause or permit the handling, transporting, or disposition of any substance or material which is likely to be scattered by the air or wind, or is susceptible to being airborne or windborne; or to operate or maintain or cause to be operated, maintained on any premise, open area, right-of-way, storage pile of materials, vehicle, or construction, alteration, demolition, or wrecking operation, or any other enterprise which involves any material or substance likely to be scattered without taking adequate precautions or measures to minimize emission of any air contaminants.

### 24.2 Evaluation Method

Where applicable, visual determination of opacity of emissions will be by Tennessee Visible Emissions Evaluation Methods 1, 2, 3, and 4, as amended, by the Tennessee Division of Air Pollution Control, as appropriate.

### 24.3 Visible Emission Standard

No person shall cause, suffer, allow, or permit fugitive dust to be emitted in such manner to exceed five (5) minutes per hour, or twenty (20) minutes per day, as to produce a visible emission beyond the property line of the property on which the emission originates, excluding malfunction of equipment as provided in Section 34.0, Malfunction of Equipment.
