Below is a complaint from Nurse Spears in regards to Officer Westley Keck. Due to these allegations happening outside of our facility, I have not questioned Officer Keck or informed him of the allegations. I did let Nurse Spears know that if her daughter wanted to file a formal complaint, she needed to contact a Family Crisis Unit Detective.

I am very concerned about a situation involving my daughter and Security Officer Keck. On Friday March 27th 2020 my daughter returned home from this officers house after dating him for a couple of months presenting with bruising on both legs, back one arm and a mark above her left eye. my daughter reported to me that while dating this officer he had grabbed and pushed her forcefully multiple times. I have pictures of the bruising and eye injury my daughter is afraid of this officer retaliating against her for reporting it.
