

OFFICE OF COUNTY MAYOR GLENN JACOBS

Procurement Division, 1000 N. Central Street, Suite 100, Knoxville, TN 37917

ADDENDUM 1 TO BID 2786

COMMODITY PROCESSING

ADDENDUM DATE:

March 5, 2019

BUYER:

Jay Garrison, CPPB

ORIGINAL OPENING DATE:

March 14, 2019 at 2:00 PM

The following is for clarification:

QUESTION 1: Are Addendums 1,2,3 and 4 the Buy American, Debarment, Lobbying and Criminal Records Check documents?

ANSWER 1: No. The addenda are amendments to the bid document based on questions received to provide clarification to the requirements of the bid.

QUESTION 2: The line 'Processed Price/Svg.' is that FFS only or should it include the cost of the commodity meat?

ANSWER 2: The column labeled "Processed price FFS/case" is for the FFS only. The column labeled "Processed price/Svg" is total cost, including DFV.

QUESTION 3: Can you tell me if the product you are soliciting here is being delivered direct to your district warehouse and billed to Knox County, or would it be delivered to a distributor, who would then store and deliver to your individual schools?

ANSWER 3: Please refer to Section 3.16, Destination and Delivery of the bid specifications.

QUESTION 4: I'm having a hard time finding the delivery period for this bid on the document. This is a direct bid, correct?

ANSWER 4: This solicitation covers the 19-20 school year and is extendable for four additional years. Please refer to Section 3.4, Award Length of the bid specifications.

QUESTION 5: And the official bid opening is date is 3/14?

ANSWER 5: Yes.

QUESTION 6: I have sent my samples in, but upon closer inspection see that my Pollock Shapes do not match the bid specs. Upon even further inspection, however, I note that the spec'd High Liner item does not meet it at all. Bid asks for 68% Fish. High Liner's is 26%, followed by 25.7% water and 8.6 % Soy Protein. (See partial from their label below.) Our product is truly 67% Fish and no added water or protein alternate. So I hope our product can get a pass.

ANSWER 6: Knox County is deleting this item from the bid. Please do not provide pricing for this item.

QUESTION 7: On the pricing pages, for the column titled "Processed Price (FFS)/cs" can you confirm that you are looking for the processing fee per case that is NET of the donated food value? For example, if our processing fee per case is \$50 and the donated food value per case is \$10, we should enter \$50 and NOT \$60 in this column, correct?

ANSWER 7: Processing (FFS) price column is for the fee for service price only. Based on the example provided, \$50 is correct for this column.

QUESTION 8: Are you able to provide estimated usage for chicken line items 6.4.1 through 6.4.5 and 6.4.7?

ANSWER 8: Please see attached estimated servings document.

QUESTION 9: In looking closely at the spreadsheet, I've noticed some formatting and rounding which is taking place in places where I would have thought there would not be. Am I to leave the sheet as is and fill it without regard for what shows, or shall I format the respective cells to show the proper values?

ANSWER 9: Please leave the sheet as is. All responses will be formatted in the same manner before evaluation.

QUESTION 10: Can you please verify when the delivery period is? We did not see the dates on the document.

ANSWER 10: This solicitation covers the 19-20 school year and is extendable for four additional years. Please refer to Section 3.4, Award Length of the bid specifications.

QUESTION 11: I see on page 8 section 3.18 shows below, however the bid grid has spot for commercial price as well. Are the 2 prices averaged out for AWARD OR is the commercial price just there as back up in case you run thru your commodities and have to purchase commercially?

ANSWER 11: The commercial price is requested in case commodity allotment is depleted and there is a need to purchase commercially.

QUESTION 12: Can you tell me the volume in cases that would be purchased on the peanut butter portion of the bid?

ANSWER 12: See attached estimated usage in Attachment "B".

End of addendum.

Jay Garrison, CPPB
Procurement Coordinator

ATTACHMENT “B”

<p>Please note--for like items (those with *), estimated usage will be for which item is chosen for purchase. Examples: 800,000 servings is the estimated usage for cheese sticks in total, not each particular cheese blend. For chicken items, either the white meat or the blend will be purchased--not both.</p> <p style="text-align: center;">Estimated servings are not a guarantee to purchase.</p>
