#### **SECTION IV SCOPE OF WORK**

- 4.1 BACKGROUND:** Knox County Schools is a public education agency responsible for the education of approximately 60,000 Pre-K through 12<sup>th</sup> grade students and employs approximately 7,800 individuals. The district is comprised of 88 locations and includes urban, suburban, and rural settings. Therefore, evaluators must have experience conducting evaluations within large school districts with diverse student populations. Knox County Schools maintains a repository of student-level data and a Department of Research, Evaluation, and Assessment with whom external evaluators may work.
- 4.2 SCOPE OF WORK:** Knox County Schools (KCS) often seeks competitive federal grant funding through the U.S. Department of Education and other funders. KCS is seeking experienced external evaluator(s) capable of completing high-quality evaluations of educational projects. These vendors must have experience with large-scale federally-funded project evaluations and should meet What Works Clearinghouse evidence standards with reservations. As future funding opportunities are identified, evaluators may be asked to design evaluation plans for project submission within an expedited timeline and, upon funding award, implement a wide range of project-specific qualitative and quantitative methods that clearly connect performance measures to outcomes. Ultimately, the methods of evaluation should provide valid and reliable performance data on program outcomes in order to meet federal requirements and inform cycles of continuous improvement.

Successful external evaluation vendors should be available to collaboratively apply for and, upon award, complete the evaluation for Knox County Schools large-scale federal grant projects. This Request for Proposals does not commit vendors to a specific grant funded project, but will enable Knox County Schools to contract for external evaluation services for future projects. Vendors should indicate particular areas of interest, strengths, and experience as external evaluators will be selected to collaborate on future projects based on areas of best fit. For example, evaluators with strengths and experience solely in core content academic projects may not be selected for work on social-emotional or disparities based projects.

If multiple awards are made, a list of awarded vendors shall be established, grouped by areas of interest, strengths and experience and ranked in the order of scores achieved through this Request for Proposal process. The list shall may be used to offer contracts to vendors for projects as they occur, proceeding down the list in sequential order.

- 4.3 EXPERIENCE & QUALIFICATIONS:** Vendors are to submit their number of years in business, along with any related advanced education credentials, relevant work experience, demonstrated outcomes, independent research, and publications in the subject areas addressed by this RFP. The selected vendor(s) must have extensive experience in academic evaluations of PreK-12 students including advanced statistical matching and sampling techniques. Evaluators should have experience with meeting the demands of evaluating large-scale Federally-funded projects, particularly either Investing in Innovation (I3) or Education, Innovation, and Research (EIR) grants funded by the US Department of Education's Office of Innovation and Improvement. This information must be included in Tab III of Section V, Proposal Format.
