#### SECTION IV SPECIFICATIONS

- **4.1 <u>CARTON QUANTITIES</u>:** The successful vendor shall waive standard carton quantities. If only a single filter of any size is needed, there shall be no minimum or case quantities required.
- **4.2** <u>CHANGE SCHEDULE:</u> KCSMO air filters are changed on a regular basis (monthly, bi-monthly, semi-annual). The current schedule for filter changes is divided into two (2) one-month schedules. Filter requirements for each week are called blocks and are to be available for pick up or be delivered weekly for eight (8) consecutive weeks.

Due to changing requirements the quantities and sizes may vary for each block from one eight (8) week cycle to the next eight (8) week cycle.

Prior to pick up or delivery for each eight (8) block order, a line item quote must be submitted for a per block order approval. A purchase order will then be issued, or credit card order placed with the prices as reflected in the contract.

Vendor must provide a specific location for KCS personnel to pickup filters at the vendor's warehouse.

The successful vendor(s) will be supplied a complete list regarding filter change schedules.

- **4.3** <u>COMPLETE ORDERS</u>: The successful vendor(s) will be required to have available only complete orders. Partial orders will not be accepted without **prior** express written consent from the HVAC department. Repetitive requests for partial orders shall be just cause for termination of the term bid agreement.
- **4.4 DELIVERY:** Ideally KCSMO would like to be able to pick these items up but delivery can be made if needed. Delivery shall be made to KCSMO at specified location to be determined for each block. Deliveries must be made weekdays between the hours of 6:30 a.m. 1:30 p.m.
- **4.5 <u>FILTER SPECIFICATIONS</u>:** The following specifications are the minimum accepted for this Invitation for Bid:
  - 4.5.1 Filter Frame
    - To ensure strength and filter integrity the filter frame shall be formed from a high-density beverage board with a caliper thickness of not less than 38 thousandths (.038).
    - The filter frame must be unitized (all one piece). The filter frame must be parallel scored and broken on greater than 90 degree angles to allow for maximum stiffness and strength. In order to maintain strength required for side access loading, form rolled edges will not be acceptable.
    - Sample filters of 10"x60"x1" and 9"x24"x1/2" will be required.
    - All filters shall have the capacity for moisture saturation without coming apart. A saturation test which involves soaking in water may be required, in order to verify air filter wet strength.
  - **4.5.2** Pleated Filters:
    - All filters shall be pleated unless otherwise specified as "insert".
    - Pleated filters will contain no less than 13 pleats per linear foot and shall be encased in a die-cut water-resistant beverage board type framework on both air entering and air exiting sides of the filter.

- All pleated air filters will filter particles between 1 and 10 microns in size as per ASHRAE 52.2 MERV 10 rating.
- All four media sides touching the outer perimeter of the die cut frame will be attached to the framework with a suitable bonding agent to prevent air bypass of the filter media.
- The cross hatch bars of the die-cut frame will be bonded to the apex of the individual pleats on both the air entering and air exiting sides. Due to side access strength issues, the use of individual glued strips acting as a media retainer will not be allowed.
- Pleated filter media will be supported with an expanded wire that is attached to the air exiting side of the medium
- A test report must be submitted with the bid
- 4.5.3 Insert Filters:
  - Must be Blue and White poly media (PET Resin Bonded)
  - Insert filter must have initial resistance no higher than 0.11 wg
  - MERV rating must be no less than MERV 7 per ASHRAE Standard 52.2
  - A test report must be submitted with the bid
- **4.6 <u>EMERGENCIES</u>**: In case of any emergency (as deemed by KCSMO) vendor must be able to supply KCSMO with filters for as much as, but not limited, to one school within a 24 hour period.
- **4.7 EXACT CHANGE OUT:** The successful vendor(s) must supply the exact QUANTITY required to complete one change out in a school. Minimum order quantities will not be accepted.
- **4.8 PACKAGING:** The successful vendor(s) will be required to bulk package and label all filters by individual Knox County School and Block number with the quantities and sizes marked on each container. The bulk packaging may contain multiple filter sizes. **No package may contain filters for more than one school.**
- **4.9 QUANTITIES:** All quantities listed in Attachment I are estimates only. KCSMO does not guarantee any quantities during the life of the term bid agreement. The estimates provided are for information for the vendors only. Consideration should be given that usage and size may change during the course of this term bid agreement. Vendors will only be paid for actual quantities ordered each month.
- **4.10 SIZE CHANGES:** Filter size changes occur monthly as upgraded equipment is installed. Filter size changes must be made accordingly with no interruption of filter availability. Changes will be made by KCSMO. New sites may be added to the award as they open.
